

games: net Berlin Europe

Exchange and networking platform for games and digital media industries in Berlin and Europe

games:net
Berlin Europe

Exchange and networking platform for games and digital media industries in Berlin and Europe

games:net Berlin Europe is an exchange and network platform which connects the games and the linked digital media industry in Berlin and Europe with a focus on Spain, the Netherlands, France, Switzerland, Italy and the United Kingdom.

The games industry is booming – not only in Berlin. As a location, however, the capital is an important hub for the development of the international network. Here, the whole industry profits from creative game developers, publishers and a constantly growing indie scene.

games:net Berlin Europe will expand the established network throughout Europe and facilitate sustainable growth for the existing and future members and partners.

The project is financed by the European Regional Development Fund and the State of Berlin, Senate Department of Economics, Energy, and Public Enterprises through its Program for Internationalization.
