

Short Profile

medianet berlinbrandenburg e.V. is a network association for the media, creative and digital industries, which was founded in 2001. Together with the members of the network, politics, business and science, the medianet creates a cooperation on an equal footing in the Berlin-Brandenburg metropolitan region and beyond the state borders. It strengthens the locations as employer regions, is a driving force, supporter, doer and connects actors in an interdisciplinary manner on the common path to the digital future.

Our vision

medianet berlinbrandenburg e.V. is the leading interdisciplinary network in the metropolitan region. With its curated membership structure, the association represents the needs of the media, creative and digital industries in the Berlin-Brandenburg area and achieves visibility for the entire network through curated and relevant content.
